Goal #1 Discussion

Jason-There are teachers that are recognizing their classroom libraries and sets of books are getting worn out.

Linda-There are sets of books that are available in the leveled library.

Paula-Explains that some of the funds are difficult to use for things reading books up front because salaries need to be figured out because they have to account for things like benefits. Purchasing books for teachers classroom fits in #6 in the plan. Teachers need to ask if there is a surplus that could help with purchasing books for classrooms at the end of the year.

Goal #2 Discussion

No Questions

Goal #3 Discussion

This goal was written with the help of the state because it can be challenging to collect data about student behavior. District helps to pay wellness room personnel. Strike out on the action plan steps, " the aide will oversee the wellness room."

Goal #4 Discussion

It is only for the 4th and 5th grade science because they are the only grades that take the science RISE test.

Kim- If those students that are part of the student leadership could help the kindergarteners get on the bus for the first 2-3 weeks of school it is very helpful.

Jason- Explained how this current year students applied to be on the student leadership. Past years the students were suggested by teachers. Explained it was good to know the students wanted to be a part of the student leadership team.

Goal #5 Discussion

Paula-Karlene Young is the current ARTS teacher but will be retiring at the end of the year. Interviewing tomorrow.

Sarah-How many fundraisers can the school have?

Paula- The school can't have any fundraisers. The PTA can have as many as they would like.
