Customer Review: What kids love the dentist? Any kids that go to Cedar View Pediatric Dentistry, that's who! My kids countdown the days until their appointment. The team makes everyone feel like they are the most important person in the office even though the office is always full and I always feel confident that my kids are getting the best quality of care. The entire team is great at making sure kids (and sometimes nervous parents) have a positive experience. I would never take my four little ones anywhere else.
